

CLAYS FOR CHILDREN

HEROES FOR HEALTH

January 5, 2020

### The Double Crown

Child and Family Resource Foundation and Free Medical Clinic of Darlington County have great news. As we move forward in 2020, we are focusing on ways to bring mental health services and medical services to deserving children and their families. Often, there are times that health and wellness services are not covered by insurance, even Medicaid. Child and Family Resource Foundation and Free Medical Clinic of Darlington County are partnering together to help children and their families in need to receive both therapeutic and medical services.

Our Clays for Children and Heroes for Health Double Crown event will be held Saturday, March 21, 2020 at Moree's Sportsman Preserve and Moree's Cheraw Country Club. Join us for a morning of clay shooting or golfing, with lunch, an awards ceremony and silent auction supporting happy, healthy, families in Darlington County.

The purpose of the 2020 Double Crown is to bring awareness and raise financial support for medical and mental health services for children and their families in Darlington County who cannot afford it.

Without donations and sponsorships, Child and Family Resource Foundation, nor Free Medical Clinic of Darlington County would be able to help provide the much-needed medical and mental health services to the children and their families.

Don't shoot clays or play golf but still want to support the wellness of children and families? Please consider donating to our silent auction or joining us for a delicious lunch and awards ceremony at 1:00 pm. Tickets for the lunch are \$30/individual and for \$50/couple.

Please consider donating today, by actively participating with us in our commitment to providing lasting mental health and medical care in Darlington County. You can purchase your ticket(s) online at Eventbrite, or you can mail your tax-free donation to PO Box 1257 Hartsville, South Carolina 29551. Child and Family Resource Foundation and Free Medical Clinic of Darlington County are 501c3 organizations and your donations are tax deductible. Please consider donating today. All monies will be used to support mental health and medical services to the most needy children and families in our county.

Sincerely,

Tracy Redfearn, Executive Director, Child and Family Resource Foundation

Stephen Edwards, Executive Director, Free Medical Clinic Darlington County
